First Week

.....
Thank you to everyone for an amazing first week of school! We could not have done it without the help of parents getting kids here on time and supporting us! The kids have done really well transitioning into class which has made for an enjoyable first week! I'm excited to see what this school year brings with such an enthusiastic group of students!

Montessori Compass

Over the last few days, we have been trying out a new program called Montessori Compass! This online tool is designed specifically for Montessori teachers to connect with parents. The teachers can upload student progress for parents to view on their individual parent portals. There is also a calendar on there that will let you know about important upcoming events and school closings. Through Montessori Compass, you can message your child's teacher. Signing up is easy and takes minutes. I would like to ask as many parents as possible to help us use this service and provide feedback so we can decide if we want to keep it long-term! To sign up, all I need is an email address and you will get an email that will take you to the website with instructions.

Best Wishes,
