Parent Education

After attending the Montessori Alliance conference last weekend, we have been thinking of ways to incorporate some of what we learned in our school. One thing that we are looking at doing in the next month or so is a "Curriculum Night." This is a night where you and your child come in to the classroom and your child gets to show you all of the lessons they are learning and show you how to do them. Teachers are there in the background to answer questions if necessary. If we can get an idea of the number of people that might be interested in a Curriculum Night, that would be very helpful!

Montessori Compass

It has been brought to my attention that some of the information is difficult to find on Montessori Compass. If anyone needs help navigating the website, please give me a call. The best option is going to be to set up and time and go through it together. My portal and the teachers portal look a bit different and can make it difficult to assist you.

Pictures!

Pictures are here! The way this works is, we will keep the pictures here at the school until they are purchased. Any pictures not purchased get sent back to the company. The entire envelope contains 10 "Sheets" and is \$69. There are options for smaller packages if you want. "Sheets" are any page in the package and you can mix and match if you choose not to buy all 10. Everyone gets to keep the Smile Safe card and the card contains the online code to view and purchase photos and gifts.

Best Wishes,
